WE MANAGE

We help you manage all your strategy management processes

Performance Data Management: Collecting, following up, and preparing performance data for reviews.

Meeting Management: Sending invitations, scheduling, and preparing for strategy-related meetings.

Budgeting Coordination: Supporting the budget team for planning, preparing, managing budget preparation, and monitoring processes.

People Performance Management: Overseeing performance management processes of individuals, teams, 360-degree reviews, and competency management processes.

Risk & Compliance Management: Ensuring risk and compliance processes are addressed and reported.

BSC or OKR Coordination: Managing Balanced Scorecard (BSC) processes or Objectives & Key Results (OKR) processes.

Project Progress Reporting: Gathering project updates and delivering performance reports.

Assessment Preparations: Coordinating and conducting assessments of ESG, OHI, and SFO to evaluate strategy transformation progress.

Strategy Analysis Support: Assist strategy leadership team to perform strategy analysis and prepare reports.

Routine Tasks: Handling day-to-day collaboration activities required as part of strategy management.

Dedicated Resource: A trained professional with strategy management expertise and knowledge of fruiStrategy will manage your processes at agreed timings.

Expert Supervision: Oversight by a senior Strategy Management Expert ensures quality and alignment with best practices.

fruiStrategy Platform: Utilize our powerful tool to streamline, monitor, and optimize your strategy execution processes.

Custom Process Execution: All processes are tailored to your organization's needs and delivered according to strict Service Level Agreements (SLA)

WE OFFER

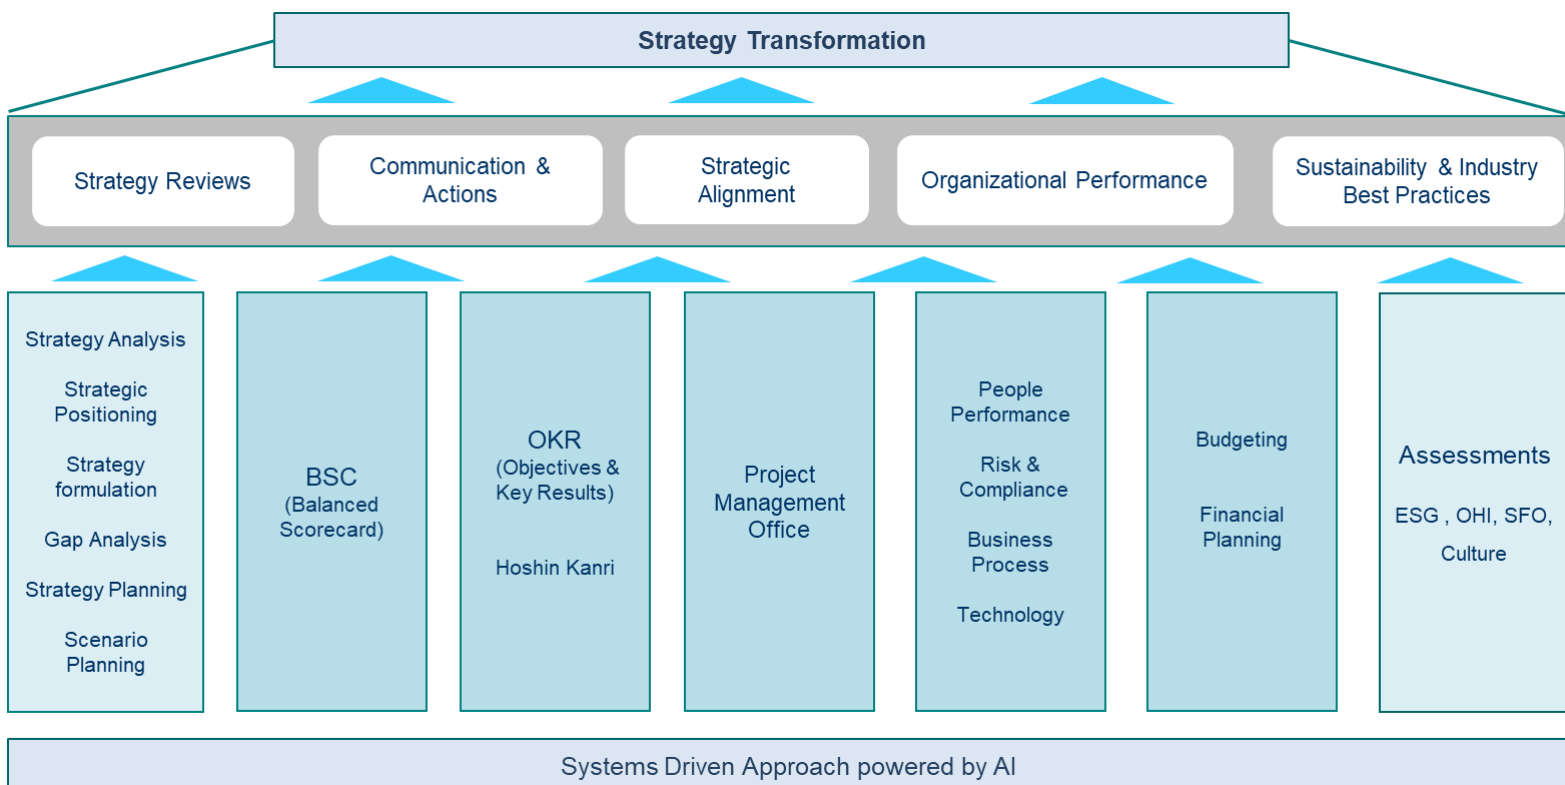

We combine expert resources, robust processes, and innovative technology to create a comprehensive solution for strategy management.

Key Features

Executing strategy is a top priority and a significant challenge for CEOs navigating the dynamic and competitive landscape of the innovative industry. Balancing financial outcomes, meeting customer expectations, optimizing internal processes, and ensuring business alignment pose key challenges. Achieving profitability and establishing a competitive advantage require a combination of strategic and operational excellence. Adopting a strategy execution system is essential for an organization to transform into a Strategy-Focused Organization.

Architecture

How it works?

fruiStrategy Extended OSM delivers a seamless, end-to-end approach to strategy management by combining expert resources, advanced technology, and robust security protocols. Whether you need tailored process design, remote management, or real-time performance tracking, our solution ensures your strategic goals are executed with precision and efficiency. Backed by dedicated professionals and senior strategy experts, we provide the expertise and tools required to streamline operations, safeguard sensitive data, and drive measurable results—all without the overhead of a full-time, in-house team.

Tailored Process Design: Collaborate with us to design strategy management processes required for your business needs

Dedicated Resource Assignment: A skilled professional manages your daily strategy processes remotely at agreed time intervals

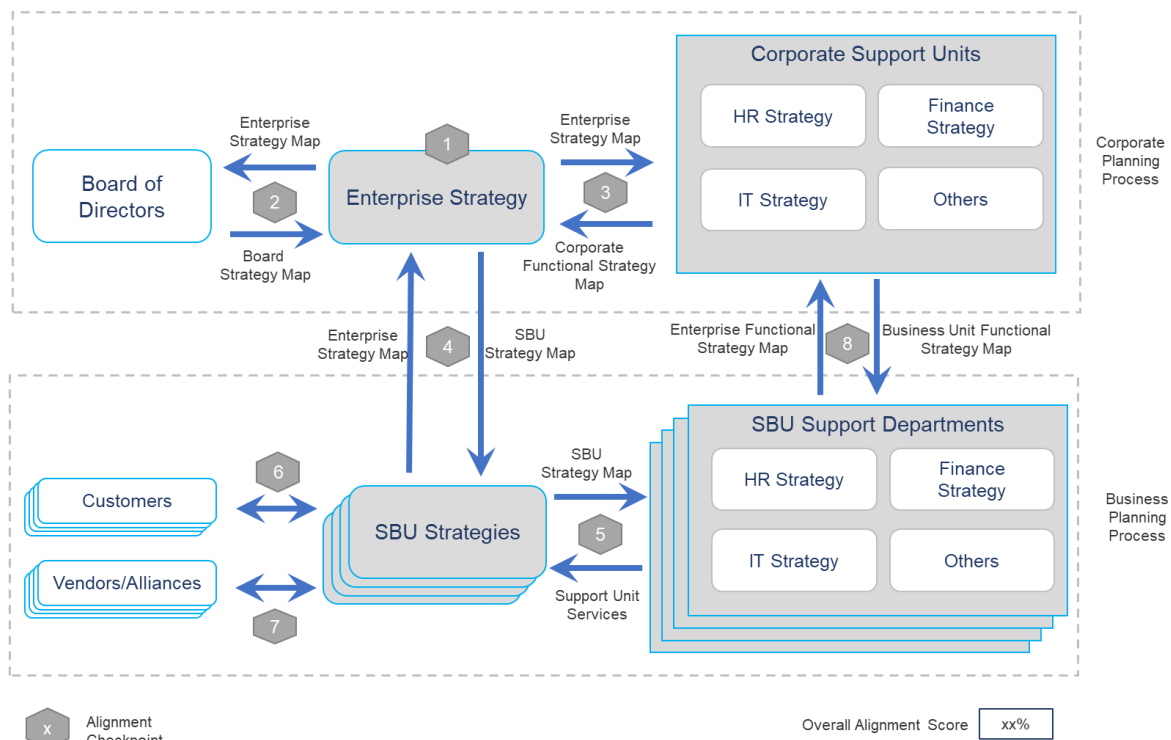

Supervised Operations: A senior Strategy Management Expert ensures best practices, delivery, quality and alignment.

Technology-Driven Management: All tasks, updates, and progress are tracked in real-time through fruiStrategy

Data Security Measures: Your data is safeguarded using encrypted communication, secure storage, and regular audits to prevent breaches or unauthorized access.

Confidentiality Assurance: We sign NDAs, train staff on confidentiality best practices, and isolate client data to ensure sensitive information remains secure.
